

2018-19 Request to Change Dependency Status (Dependency Override)

Financial Aid Office
Bristol Community College 777 Elsbree Street Fall River, MA 02720

Information and Instructions

The Financial Aid Office may consider exceptional/unusual circumstances to allow an otherwise dependent student to apply for aid without parental financial information.

Only extreme, documentable cases in which parents' information cannot be obtained due to estrangement will warrant a change from dependent to independent status.

Note: Several conditions that do not qualify as unusual circumstances, either individually or in combination, include:

- parents who refuse to contribute, are unwilling to provide information, or
- do not claim the student as an income tax dependent, or
- students who demonstrate total self-sufficiency
- Also, the fact that a student's parents live in another country does not qualify as an unusual circumstance.

A student who does not qualify for a dependency override can complete the Parent Refuse Form to receive consideration for an unsubsidized loan.

To request consideration for a dependency override, two statements must be completed. Submit both documents to the Financial Aid Office at the same time.

1. Student's Personal Statement (page two of this form)
2. Counselor Statement
 - The statement must be on business letterhead
 - The statement must be from an individual who has an established professional counseling relationship with the student and/or the student's family
 - A social worker, professional counselor, high school guidance counselor, clergy are examples of individuals who typically submit this documentation
 - The statement should describe the professional relationship with the student; explain knowledge of the student's estrangement from family, and state why the student is unable to obtain parental information and assistance.
 - A statement from a family member, relative, or friend does not meet this requirement.
